दिनांक/Nagpur, dated 08/02/2024

CIRCULAR.

Sub: Reduction in compliance burden – introduction of third party for prototype and batch-wise inspection of cylinders, valve & regulators - reg.

With reference to this office circular No. CVIII(3)125/CIR/GCR dated 05/04/2021, it is clarified that where prototype testing has been carried out by BIS, the batch/lot testing shall be conducted by BIS. However, if batch/lot testing is required by the manufacturer to be conducted by TPIA's other than BIS, the manufacturer shall approach BIS to nominate/authorise TPIA for conducting batch/lot testing. After the batch/lot inspection by the said TPIAs nominated by BIS, the test certificate for the cleared lots will be issued by the certification officer of BIS in the respective BIS branch offices.

In the cases where the prototype testing has been conducted by TPIA other than BIS, the batch/lot testing shall be conducted by such TPIA's only and certificates for the cleared lots shall be issued by same TPIA.

This shall be strictly complied with by all manufacturers with immediate effect.

(P. Kumar)

Chief Controller of Explosives
